

Online Verification

KEY INFORMATION

Selective Service Online Registration Verification

This service allows you to look up a man's Selective Service number, as well as the date he registered. Enter a last name, social security number, and date of birth for the registered man, and click on "Submit."

Only registrations of men born on or after January 1, 1960, can be verified through this system. To obtain Selective Service information about men born earlier, and follow the instructions on our "Records" page.

This service is operational seven days a week. It is not available when system maintenance is scheduled from 2 a.m. to 4 a.m., U.S. Central Time, Tuesday through Saturday

Selective Service Online Registration Search

[FAQs](#)

AFFIDAVIT OF ORLY TAITZ

1. I, Orly Taitz, am over 18 years old, I am an attorney, licensed in the state of California and admitted in all courts of California, 9th Circuit Court of Appeals, 3rd Circuit Court of Appeals and Supreme Court of the United States. I have personal knowledge of the facts described below and I can competently testify at trial to the following:

2. I received information from licensed investigators Sankey and Daniels as well as recently retired senior deportation officer John Sampson, that for most of his life Barack Obama used and is currently using a Connecticut social security number ██████-4425.

3. The first three digits of the number 042 were assigned by the Social Security administration to the state of Connecticut.

4. Based on information and belief, Obama was never a resident of Connecticut.

5. Concerned that we have an individual fraudulently using a stolen social security number from a state, where he never resided, I decided to verify this information through official sources of the U.S. government.

6. I went on the official website for the U.S. government www.sss.gov. This website provides verification of the Selective Service registration with the U.S. military.

7. One cannot occupy an executive position with the U.S. government without such registration with the Selective Service.

8. For verification one is supposed to enter the name, birthdate and social security number of the individual. If all three parameters match to the identification information on file, it will show "Matched record".

9. I personally entered name "Obama", birthdate 08.04.1961 and social security number ██████-4425, given to me by investigators Sankey, Daniels and Sampson.

10. I got a response "Matched record" . selective service number 61-1125539-1. Date of registration 9.4.1980.

11. From birth and until date of registration Obama was not a resident of Connecticut.

12. I also received a sworn affidavit from expert Chito Papa, showing, that Barack Obama is using the same Connecticut social security number ██████-4425 on his 2009 tax returns, which were posted on the official web site WhiteHouse.gov. This tax return was later reposted with the file flattened and the social security number electronically whitened, however the original file with the visible social security number was downloaded by Mr. Papa and multiple other individuals. A true and correct copy of such affidavit is attached herein.

13. I also received a sworn affidavit from Ms. Linda Jordan. A true and correct copy of such affidavit is attached herein.

12. As an attorney and officer of the court I declare under penalty of perjury, that above is true and correct statement of the facts. As an officer of the court I am requesting an immediate hearing on this matter, as it shows that we have an unprecedented breach of the U.S. National security, we have an individual with a fraudulently obtained Social Security number from a state, where he never resided, occupying the position of the President of the United States and Commander-in-chief.

/s/ Dr. Orly Taitz, Esq.

EXHIBIT 3

I, Linda Jordan am over 18 years old, do not suffer from any mental impairment, have personal knowledge of the facts listed below and declare under penalty of perjury:

I used the government run E-Verify System to verify the employment eligibility for Barack H Obama (Obama) and it revealed a "Notice of Mismatch" between Obama's name, birth date and Social Security Number (SSN), compared to the information the Social Security Administration has on file.

I saw Obama's Selective Service Registration (SSR) form which was available on the web at www.sss.gov and copied the SSN Obama used on that form. I also read the reports of licensed investigators Neil Sankey, Susan Daniels and the opinion of retired senior deportation officer of the department of Homeland Security John Sampson, that the SSN Obama was using was fraudulent and/or never issued to him.

Between October 2008 and May 2011, I submitted several requests to agencies and people with the legal responsibility and authority to investigate the use of forged documents and election fraud, concerning Obama's birth records and SSN. (attachment A)

To date no one with the legal responsibility and authority has responded to any of my requests.

I read part of the testimony of Marianna LaCanfora before the Committee on Ways and Means Sub Committee on Social Security in the House of Representatives dated April 14th, 2011. She explained that a SSN in conjunction with a proper identity document determine whether a person is authorized to work. LaCanfora said that the E-Verify system run by the government is a free, Internet-based system that allows employers to electronically verify the employment eligibility of their employees. The Immigration Reform and Control Act of 1986 required all employers to verify the identity and employment eligibility of all new employees regardless of citizenship or national origin.

I considered myself to be one of the employers of the President of the United States.

On July 26, 2011, I tried to enroll in the E-Verify System but it required the employer to enter data from their employees I-9 Employment Eligibility Verification Form. I have been unable to locate one for Obama.

On August 17, 2011, I went back on the E-Verify website and saw that there was a "Self-Service" function that was more streamlined and easier to use when checking an employees eligibility. I entered the name Barack H Obama, birth date August 4, 1961 and SSN ~~0-0-0-0~~4425. This data was entered correctly. The report I got back from the SSA included a "Notice of Mismatch with Social Security Administration (SSA) Records". (attachment B)

STATE OF FLORIDA
J.S.S.
COUNTY OF DUCAL

I, Felinto Papa, am over 18 years old and resident of 7579 Walden Road, Jacksonville, FL 32244 with FL DL #P100-245 45-082 0. I do not suffer from any mental impairment and can competently attest to the following under the penalty of perjury:

1. I am a professional web developer having graduated with a bachelor's degree in IT at IIT Technical Institute in Indianapolis, IN.
 2. I have over ten years of experience of web designs and development and have often used software such as Adobe Photoshop and Adobe Illustrator.
 3. I downloaded from the official Whitehouse website, www.whitehouse.gov, April 27, 2011, the new birth certificate of Barack Obama II (<http://www.whitehouse.gov/the-press/files/2011/04/27/new-barack-obama-ii-birth-certificatelong-form.pdf>).
 4. I observed that the birth certificate pdf file could be opened with Adobe Illustrator and the software revealed that this document has many layers of images on it. This indicates that the document was not a true copy of the original birth certificate, but a recently created document using Adobe Illustrator.
- I further observed that this document does not have an embossed seal normally affixed by civil registrars to attest to the authenticity of government issued documents.

FURTHER AFFIANT SAYETH NO!

May 10, 2011

Affidavit

I, Douglas B. Vogt, am over 18 years old, do not suffer from any mental impairment, have personal knowledge in the following and attest under penalty of perjury that I have knowledge and expertise in documents, imaging, scanners and document imaging programs. Based on my knowledge and expertise the following is true and correct

My Credentials

I have a unique background for analyzing this document. I owned a typesetting company for 11 years so I know type and form design very well. I currently own Archive Index Systems since 1993, which sells all types of document scanners worldwide and also developed document imaging software (TheRepository). I know how the scanners work. I have also sold other document imaging programs, such as Laser Fiche, Liberty and Alchemy. I have sold and installed document imaging systems in city and county governments, so I know their procedures with imaging systems and everything about the design of such programs. This will be important in understanding what has happened with Obama's Certificate of Live Birth.

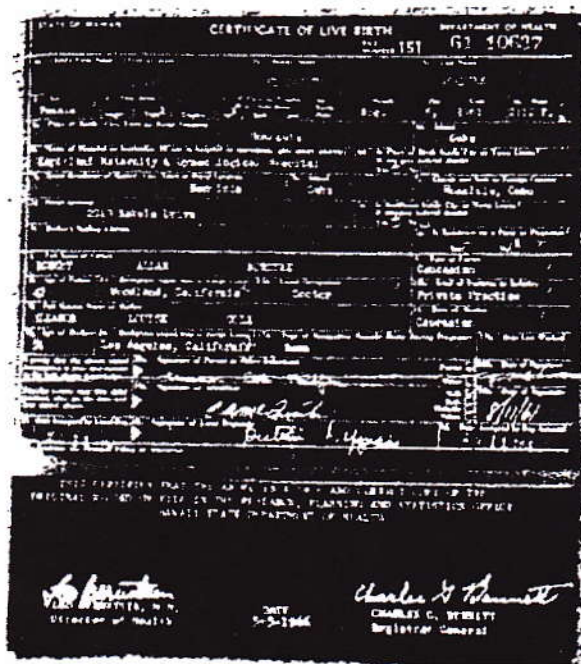

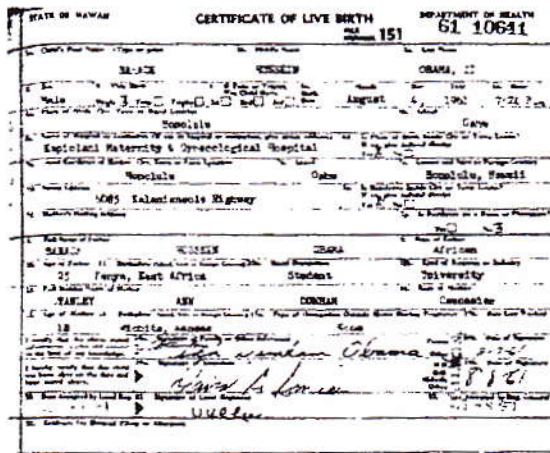

Figure 1. Tiff image of the Obama's Certificate of Live Birth dated August 8, 1961, presented on TV 4/27/2011.

Figure 2. Another Persons microfilmed Certificate of Live Birth dated August 11, 1961.

What I Discovered about Obama's Certificate of Live Birth and why it is a Forgery.

What the Obama administration released is a PDF image that they are trying to pass off as a Certificate Live Birth Long Form printed on green security paper by the County Health Department. The form is a created forgery for the following reasons.

1. **Curved and non-curved type.** The image we are looking at was scanned in grayscale and some part in binary which cannot be on the same image. The reason I know this is because of the shadowing along the gutter (left-hand side). It also means that the county employees who did the original scanning of all the forms, did not take the individual pages out of the post binders. The result is that all the pages in that book display a parallax distorted image of the lines and type. They curve and drop down to the left. If you look at line 2 (Figure 3) on the form that says *Sex* you will notice the letters drop down one pixel but the typed word *Male* does not. Also notice the line just below *Male* drops down 3 pixels.

Figure 3. Line 2 of the form. Baseline differences.

The second incident of this parallax problem is seen in line 6c *Name of Hospital or Institution* (Figure 4). The word *Name* drops down 2 pixels, but the typed hospital name, *Kapiolani*, does not drop down at all. And again the line just below drops down 2 pixels, but not the name *Kapiolani*.

Figure 4. Line 6c at 500%. The typewriter name of the hospital does not drop down 2 pixels.

The conclusion you must come to is that the typed in form was superimposed over an existing original Certificate of Live Birth form from the county. In fact, since I found some of the form headings scanned in as binary and grayscale, the form itself is a composite but the person who created it did not flattened the image of the blank form and save it as one file before they started placing the typewriter text on the composite form. The individual(s) who perpetrated this forgery could not evidently find a blank form in the clerks imaging database, so they were forced to clean up existing forms and overlay the typewriter type we see here. The forger was also looking for certificates with the correct stamped dates and that is why I think they used more than one original form. At first I wondered why the forger didn't just typeset the entire form from scratch and overlay the type and not have to worry about the parallax problem. Then I remembered that in the early

1960s there was no phototypesetting and this form was set in hot metal from a linotype machine. The type design is Times Roman but they could never replicate the exact design. They were stuck having to use existing forms that were scanned in using binary and grayscale.

2. There is a white haloing around all the type on the form. Figure 5 is an example of this. This effect should not appear on a scanned grayscale image. Figure 6 is a grayscale image scanned in at 240 dpi. You will notice that there is no haloing effect around the type and also the security pattern is seen through the type. Figure 7 is a color image where you can clearly see the security green color through the type and no haloing. Figure 8 shows a Black and White (binary) image of the same type. The important thing to remember is that you cannot have grayscale and binary on the same scan unless the image is a composite. That means that different components of the whole image are made up of smaller parts. Figure 9 is an enlarged version of Figure 6 showing what grayscale letters should look like compared to binary.

Figure 5. Obama's form

Figure 6. Grayscale. Figure 7. Color image.

Figure 8. Binary image.

Figure 9. An enlarged version of Figure 6 showing grayscale type.

3. The Obama Certificate is loaded with both binary and grayscale letters which is just another smoking gun that this form is a forgery. It appears the lines and some of the boxes were scanned using grayscale, but only some of the form headings were grayscale and sometimes it is only some letters. Figure 10 and Figure 4 give one example. You will notice that the *H* and *al* in Hospital, *I* in Institution, *If* and again the *h* and *l* in hospital were grayscale images, but the rest of the line is binary. The typewriter line below was scanned in as a binary image. I can also tell you for certainty that the form type was scanned in at a lower resolution (≤ 200 dpi). This is because of the size of the pixels on the letters were such that the openings on the *a* and *s* on the first line are not visible and filled in.

Figure 10. showing a mixture of grayscale and binary type on the same line.

Another example is found in form box 1a, his name *BARACK*. For some reason the "R" is a grayscale image and the rest is binary (Figure 11). That means the "R" was originally on the form and the rest was not until it was added.

Figure 11. Another example of grayscale and binary on the same line.

Another example is the Certificate number itself (Figure 12). The last "1" on the form is a grayscale image but the rest of the numbers are not. This is just another example of a cut and past job. It also means we do not know what the real Certificate number is if there even is one. There are other form boxes that display the same feature, boxes: 5b, 7e, 11, 13, 16, 18a.

Figure 12. The last "1" is grayscale, but the rest are binary.

4. The Sequential Number is a fraud. I would like you to refer back to Figures 1 and 2. You will notice that Barack Obama was supposed to have been born on Friday at 7:24 p.m. August 4, 1961 and the local registrar accepted it on Tuesday August 8, 1961 and hand stamped the Certificate number "61 10641." Then notice that the other Certificate of Susan E. Nordyke was born on Saturday at 2:12 p.m. August 5, 1961 and another registrar date stamped it on August 11, but her Certificate number is "61 10637." Keep in mind there would be only one bates stamp machine in the office so the numbers would all be unique. There cannot be any duplicates so every Certificate has a unique serial number. Obama's Certificate would have most likely been mailed on the following Monday, the 7th and received by the Clerk Tuesday the 8th. Susan Nordyke's Certificate looks like it was mailed sometime earlier that week and not accepted until the 11th but she has a Certificate 4 numbers less than Obama's. It is impossible to have Obama's Certificate number to be four numbers higher than a Certificate that came in 3 days later.

The facts I have shown you in #3 and 4 tell me several things about how this forgery was assembled. 1. Some person(s) in the Health Department, who had access to the document imaging program, search the database for someone close to the actual birth date of Obama and found someone near the 4th of August. They may have crossed referenced the death database to find someone who had died and had a birth date close to Obama's. If you remember, the Federal Government wanted the States to cross reference the birth and death databases so the database would have that information. 2. The date stamps have two different colors and sizes (see #5 below) which indicates that both dates came from different Certificates. 3. More than one person is involved in the Hawaii Department of Health to assemble the different components that were used, do the database searches to find the right Certificates to create President Obama's fraudulent Certificate of Live Birth and finally sign the fraudulent certificate. I believe that after all the components were

assembled they were then given to a graphic artist to actually assemble the whole thing and create the finished forgery. In short this was a conspiracy to defraud the United States.

5. Two different colors and font sizes in Form box 22 and 20 Date Accepted by Reg. General.

What is very revealing about this box and date entry is there are two different colors on both lines. Both lines were scanned using binary mode, but I see two different colors (Figure 13). What I think this is showing us is that the person who put this fraud together was looking for a form that had the right date namely "August 8 19 1." As you can see the only things that are printed in dark green (R=71, G=92, B=73) are "Date A" and "AUG -8 6." The rest of the type is in black. This tells me that the forger was working in color mode. ~~Finally the Font size of the rubber stamp in box 22 is larger than the stamp used in box 20. This is unlikely because the same rubber stamp would have been used by the same registrar to stamp the dates in both places and sign the form in box 21. Since we have two size letters and numbers, that means these elements were taken from two separate forms that may have been years apart using different rubber stamps.~~

Dang

Figure 13. Two different colors, dark green and black.

The same thing is found in form box 20 "Date Accepted by Local Reg." Figure 14 again shows that the date has two different colors. The "AUG -8 196" is in dark green (R=87, G=111, B=87) and the "1" is in black. Yet again another irrefutable proof this form is a forgery. Form box 17a displays the same two color image in the word "None". The "Non" is in dark green.

Figure 14. Another example of two colors on the same line.

6. Multiple layers in the PDF file from the White House. I am not the first one to find this fact and they deserve the credit for discovering it. What they discovered is that when you open up the PDF file in Adobe Illustrator and you turn on layers, you see a long list of nine different layers that correspond to different sections of the form, including the signatures on the form. I discovered using just my Adobe Acrobat 8 Standard that I could also see the different components disappear when I enlarged the image to just 400% and used the "hand" tool to quickly move around the image. When I moved the image fast, the various type components would disappear from the form but the lines stayed just as I had concluded.

A Rebuttal to the Discovery of the Multi Layers Found in the PDF File.

The only rebuttal to the nine layers discovered in the PDF file released by the White House was a statement from a Canadian graphic artists from Quebec by the name of Jean-Claude Tremblay on April 29. It was reported by Fox News on their web site at

<http://www.foxnews.com/politics/2011/04/29/foxnews-says-obamas-birth-certificate-legit/>

He tries to excuse the multi-layers as merely an artifact of an OCR (Optical Character Recognition) engine and then saved as a PDF. There are two major reason he is wrong and I know from his statement he knows nothing about OCR engines and how they work and their file structure. First of all the Obama PDF certificate was supposed to have come directly from the Health Departments office. As stated before, the records they have would have absolutely no reason to be OCRed and if they were asked to give the customer a PDF image it would be from their existing TIFF image stored in their document imaging program on the server. The program would have done no OCR processing at that time.

My qualifications on OCR programs are considerable. Our own document imaging program, TheRepository, has an OCR option from Expervision that is called TypeReader. We integrated TypeReader into our program but to do this we had to sign a non-disclosure statement with them and then we got their Took Kit and API. When an OCR program saves a file as a searchable PDF, the file contains three main files within it. The first file is an image file, usually a compressed Group4 TIFF. The second file is a ASCII text file and the last file is a matrix file that contains the X and Y coordinates of all the words in the document. The Starting point for the image file and the matrix file is usually the upper right-left hand corner of the image measured in pixels. The test file and matrix files would never be seen as separate layers and there is certainly no nine layers. The three files would be in a PDF "wrapper" and that's all. All OCR programs work on the same principle.

Conclusion

The Certificate of Live Birth Obama presented on television on Aril 27, 2011 is a forgery.

In witness whereof he has hereto set his hand and seal.

Name of Notary: ZACHARY S. NIEBRUEGGE

and 6,542 others like this

Announcing it's "not her lucky day," a federal judge in Washington, D.C., has told an eligibility attorney he has dismissed her case demanding information from the regarding President Obama's Social Security Number, sought because of suspicions it may be fraudulent.

The case was filed by California attorney who has brought many of the major court challenges to Obama's eligibility based on a lack of evidence that he meets the U.S. Constitution's requirement that be a "natural-born citizen."

President Obama

Jerome Corsi's New York Times best-seller, "Where's the Birth Certificate?," which addresses Obama's Social Security Number, is now available for immediate shipping, autographed by the author, only from the WND Superstore.

The case at hand was filed against the Administration because Obama's number indicates a Connecticut residency, yet there is no evidence he ever lived in the state. He claims he grew up in Hawaii and apparently had a Social Security Number there, as he reported he worked in a Honolulu ice-cream shop.

The judge, Royce J. Lamberth, credited Taitz for her dedication to her cause but said that "today is not her lucky day."

"The SSA explained that the Privacy Act of 1974 protects the personal information of social security number holders," he wrote. "The SSA determined the plaintiff had identified no public interest that would be served by disclosure."

"Plaintiff makes no secret of her intention to use the redacted Form SS-5 to identify the holder of social security number XXXX-XXX-4425 - or, as plaintiff puts it, to confirm her suspicion that the president is fraudulently using that number," the judge wrote.

But Lamberth wrote in the case against Michael Astrue, Social Security commissioner, that whether Obama is using a fake number isn't his concern.

"Even if plaintiff's allegations were true, an individual's status as a public official does not, as plaintiff contends, 'make exemption 6 irrelevant to him and his vital records.'"

He said he would "disregard" documents from the [redacted] and the Social Security Number Verification System suggesting there are problems with Obama's number, because he "concludes" they were obtained "under false pretenses."

Taitz told WND she is submitting a motion for reconsideration based on new evidence that includes an affidavit from an individual who obtained a government affirmation that the [redacted] is using doesn't match his name.

She said it is important to the public, because it could provide evidence of fraudulent IRS returns, fake election documents and Social Security fraud, should the allegations prove accurate.

America's News

Taitz also has filed a state court action on similar grounds in Hawaii, where there had been a hearing scheduled in September on orders from a federal judge to address the state's refusal to comply with a subpoena for [redacted] birth documentation.

Her Petition for Writ of Mandamus, if granted, would require the state Department of Health to turn over to her the original 1961 Obama birth records the agency has kept from the American public.

A mandamus action compels an official or government officer to perform a duty demanded by the petitioner.

Taitz filed 48 pages of pleadings and exhibits before Circuit Court Judge Rhonda Nishimura.

It is separate from the Astrue case, which she said would be appealed.

Taitz has maintained that by releasing his long-form [redacted] to the American public on April 27, Obama has waived all privacy restrictions that would prevent the Hawaii DOH from making public the original 1961 birth records the agency has on file.

"I decided to file the state case for mandamus because this is a separate case that stands on its own," Taitz told WND.

Taitz charged that if the long-form birth certificate [redacted] released on April 27 is not on file in a 1961 original copy in the Hawaii DOH, then a criminal felony has been committed.

"I don't believe there is any 1961 typewritten birth certificate document for Obama on file in the Hawaii DOH that looks anything like what the White House released," she asserted. "Why else would the Hawaii DOH fight me so hard to keep us from seeing whatever birth records are on file?"

This Judge should be terminated for not upholding the law. This is so blatantly covering up Obama's crimes.

Can you say, "Bought Off?" I know you could.

I would be willing to bet most of our leadership is "bought off".

Absolutely - it crosses party lines - Congress is silent about everything the treasonous tyrant does - remember how everything was gonna change after last November? NOTHING has changed.

I have provided my SSN to all of the employers I have had over the years. Why does Obama who works for us have some privilege that makes him exempt from such information gathering by us, his employers?

Because of the presidential secrecy act - which he signed as an executive order on his very first day of office. Think he had something to hide??? And now they are using the bogus citizen's bogus orders to keep protecting him as he destroys our country.

Only a RACIST would question The One, HOW DARE YOU!

Hi-ho, I have been called a racist so many times that it doesn't even affect me now. It used to hurt my feelings (yes, its possible) but now together with brither, and a few others, they no longer affect me.

Judge Lamberth's Decision in the Taitz v Astruc Lawsuit is Another Stake into the Heart of the Rule of Law | by CDR Kertchner (Ret)

CDR Kertchner (Ret)

THIS IS BS - I'm tired of NO ONE having the guts to challenge this case all the way up! Are we that afraid that removing his illegal butt that it would incite race riots? We already have the race baitors like Sharpton, Jackson-Lee and the others.

Kim-Douglas Vogt, who is one of the people who have examined the birth certificate fraud is sending a 22 page document to the FBI. From there to ALL federal/state judges. Anyone involved in our judicial system. This is so they cannot claim "plausible deniability". Don't worry the TRUTH SHALL & WILL PREVAIL! Senators ISSA&GRASSLEY are going after this administration for FAST&FURIOUS as well. You cannot continue to break law after law and not be held accountable. Sheriff Arpaio is also looking into the fraudulent birth certificate issue. Don't let these OBOT CONEHEADS continue to take cover from the truth. This just got much more fun.

Chief Judge Royce C. Lembreth
U.S. District Court for the District of Columbia
333 Constitution Ave. N.W.
Washington, D.C. 20001

Dear Judge Lembreth,

You have my empathy.

Sitting as a Federal Judge and handing down decisions on contentious cases no doubt leaves some individuals angry at you. Personally, my first reaction to your initial ruling dismissing Dr. Orly Taitz' case to uncover President Obama's real or fraudulent Social Security number was just that - anger. However, I wanted you to read this letter. So, I moderated my feelings. Anger is not a solid basis from which to ask any question. Let's just say I'm confused and perhaps you can clear up my confusion.

I have read your bio. You appear to be a reasonable individual. Texan, Viet Nam Vet, former Chairman of the Professional Ethics Committee of the Federal Bar Association. And, you have demonstrated a willingness to confront government when you felt a wrong had been perpetrated. Specifically in your dealings with The Interior Department you said, "the court has wanted to simply wash its hands of (this situation), but to do so would constitute an announcement that negligence and incompetence in government are beyond judicial remedy."

So here is my confusion: If, on the one hand, you are a no-nonsense straight shooting Texan and believe that a court should not simply "wash its hands" when it confronts government incompetence, why then would you do exactly that when your court is confronted by a level of potential abuse significantly more heinous than incompetence -- fraud?

Please take a moment to reflect. I am not a wild man ranting in the night. I, too, am a Viet Nam Vet. I own a small business and love this country and the opportunities it offers as much as you do. I once swore, as you did, to "protect The Constitution of The United States against all enemies, both foreign and domestic." That oath has not and will never expire for either of us.

Dr. Taitz brought reason into your court. She clearly explained that the highest elected official in America may have committed fraud. Your court could send an individual to jail for that offence, if proven. Yet, you have so far chosen to wash your hands and not deal with the issue. With all due respect, that deeply troubles me. Do you genuinely feel that this ruling is in line with that oath you took -- to uphold the laws of this land?
